

Web Site Newsletter - September 2008

Hi Everyone

Since the last Newsletter the rebuild is proceeding well. All the new pages are in place and the retained 'old' ones have had their face lift. The photos, images and PDFs are all in place and are in the process of being checked for rendering in a 'house standard' manner. Once that is done to my satisfaction all that will remain to be done is to check that the links work.

The site's relaunch is now only weeks away - I think - so this will be the last Newsletter advising you that the present site's web pages have received the following attention:

People-Colleagues Pages (Addition) - Cliff Davies & Alan Blakesley have submitted their Cvs

People-Faces Pages (New Photos) - Alan Blakesley has submitted a photo of the 1970 Dagenham station rummage crew and Dave Weaver has sent in a photo for the 'gallery'. Jim Allen has contributed a better quality version of the 1950 Northolt staff plus a new photo of a Northolt card school from 1953.

Stores Page - Eric Preedy has supplied an image of a Measuring Cylinder to go with that of the Sikes Hydrometer and images of date stamps for the Collector Dundee (1930), the Assistant Waterguard Supt. LAP (1947) and Prestwick Airport (1947).

Training-WTC Photos Pages (New Photos) - Alan Blakesley has submitted his 1968 course and class photos and Jim Allen has contributed a 1949 class photo!

Work Pages (New PDF) - a 1932 version of Notice No 2A has been made available by Eric Preedy.

The next Newsletter will announce the relaunch and will also include news of any new or altered material that the relaunched site contains in addition to that mentioned above.

Cheers

Trev
